

PROBLEM Operating with a raised dump body can result in catastrophic damage to overpasses, bridges and overhead signs, and makes a truck more prone to rolling over

**Pollak®
SOLUTION**

The Pollak® Dump Body Warning Sensor Kit alerts the operator when the dump body is raised, preventing injury and damage

52-635P

- ① Wiring Harness
- ② Body-Up Switch & Bracket
- ③ Red Indicator Light (1/2" hole)
- ④ Mounting Hardware
- ⑤ Vinyl Insulated Butt Connector
- ⑥ Wire
- ⑦ Body-Up Switch Stop Bracket & Elevator Bolt (5/16-18 x 2")
- ⑧ Body-Up Tag

- All-in-one kit includes everything needed for installation
- Upgraded zinc-bodied and coated switch handles extreme temperatures better
- Mounts to vehicle frame and bright red light illuminates when dump body is in the raised position
- Kit available with audible buzzer (P/N: 52-635BP)

Specifications

Amperage: 10 A

Voltage: 12 VDC

Bracket Mounting Hole Diameter: 0.28"

Mounting Holes Center to Center: 1"

Wiring Harness Length: 20'

Body-Up Style: Plunger

Connector: Packard Weather Pack
